THE ZEISS CELEBRATED STEREO BINOCULAR & MONOCULAR.

CONSTRUCTED with an eye-piece of astronomical type and a system of prisms. The field is considerably larger than that of an ordinary binocular of similar magnifying power. The object glasses being placed at a distance apart, which is greater than that between the eye-pieces, these Binoculars produce a more or less marked increase of Stereoscopic effect in the images of objects seen at a distance. The metal parts of the instruments are made of aluminium covered with leather. Each instrument is provided with a strap for carrying round the neck, and is supplied in a leather case fitted with shoulder sling.

Binocular	{ 6	Magnification, Credit price, Rs. 120 ; cash, Rs. 108.

MELLIN'S FOOD

We tried nearly every other infant food known, and none of them seemed to agree. Finally we called a doctor, who commenced to use Mellin's Food for him. He immediately began to gain, and has been very healthy ever since.

—KENNETH'S FATHER.

KENNETH LESTER FOX, Three and one-half years old.

**"Madam, do you love
your children?"**

—SHAKESPEARE.

Then it will be your first care to ensure to them health and happiness in the future, by providing them with the food which nature intended should be used for their proper growth and nourishment during childhood.

MELLIN'S FOOD

is an accurate article of diet, prepared on nature's plan.

To be obtained of all Dealers throughout India, Burma and Ceylon.

ADVERTISEMENT.

MELLIN'S FOOD

For INFANTS and INVALIDS.

MELLIN'S FOOD is prepared from wheat and malted barley by machinery, is therefore **purely vegetable**, and during its preparation is **untouched by hand**.

MELLIN'S FOOD is a soluble dry extract, entirely free from starch and cane-sugar; the starch of the wheat having been transformed into dextrin and maltose by malt diastase. When added to diluted cow's milk it **produces a complete and perfect diet**.

MELLIN'S FOOD supplies materials by which diluted cow's milk is converted into an **ideal food for Infants and Invalids**; and **IT ASSURES THE DIGESTION OF THE MILK BY THE INFANT**. The character of cow's milk is so changed by the addition of Mellin's Food that the preparation is adapted for use from birth. By the use of Mellin's Food, and the exercise of proper care, those diseases which make such frightful havoc among infants in India and the East generally, such as diarrhoea, convulsions, the various wasting diseases, have been largely decreased.

Send to any of the Agents mentioned below for book of pictures and testimonials.

MELLIN'S FOOD for a light, sustaining, and highly nutritious diet, adapted for the use of all.

**ASIA'S LEADING
HOTEL. . . .**

THE
**Many
Advantages**
OF THE
**“Taj Mahal”
Palace Hotel.**

The great advantage the Taj Mahal Palace Hotel has over other Hotels in the East is that it is absolutely self-contained. There is practically nothing the traveller requires that cannot be obtained in the Building.

ELECTRICITY

Plays an important part in the working arrangements, and in addition to electric lights and bells, there are electric fans, elevators and clocks, together with cooling apparatus for reducing the temperature in a number of suites.

A Steam Laundry, fitted with all the latest sanitary appliances, hot and cold water, and an elaborate installation of Turkish Baths are among the other conveniences.

FOR AMUSEMENT

A commodious, handsomely appointed Billiard Room, comfortable Card Rooms, a well-stocked American Bar, elaborate Confectionery Shop and Tea Room are provided, together with an elegantly furnished Ladies' Music Room and Boudoir, and spacious Reading and Writing Rooms. The Orchestra plays every evening during dinner or tea, and is relieved occasionally by a Military Band.

RESIDENTS

Have at their disposal a choice of 27 well-appointed suites of rooms and upwards of 300 comfortably furnished double and single bed rooms, with private dining, reading and writing rooms, etc.

THE VIEW

From the various verandahs and windows of the Hotel is certainly one of the finest

THE LOUNGE.

in the East. The Hotel occupies a commanding position overlooking the magnificent harbour of Bombay, and its vast white dome is now the most conspicuous landmark in the City. It is exactly opposite the historic Apollo Bunder and the anchorage for warships, while its outlook includes the unrivalled panorama of the Western Ghats on the mainland.

THE CUISINE

Is under the direction of three experienced French Chefs, aided by a competent staff, and the kitchens are fitted throughout in the most up-to-date scientific style.

IN THE BUILDING

Are to be found Post and Telegraph Offices, a Pharmacy, Hair-Dressing Saloon, Outfitting and Tailoring Establishment, Cigar Shop, Book Stall, and a Photography Store, with a dark room fitted up for the convenience of amateur photographers in the Hotel itself. Motor Cars and Carriages of every description may be hired from the Hotel, special elaborate Mews having been built in connection therewith.

THE WHOLE ESTABLISHMENT

Is under competent European management, assisted by a well-trained staff.

Rooms, including board, may be obtained from Rs. 7 upwards per diem.

INDIAN MEDICAL GAZETTE.

THE JOURNAL OF THE INDIAN MEDICAL SERVICE.

A Monthly Record of Medicine, Surgery and Public Health, and of General Medical Intelligence, Indian and European, with special Attention to Diseases of Tropical Countries.

Edited by Major W. J. BUCHANAN, B.A., M.D., D.Ph. I.M.S.

Associate Editors—Lt.-Col. J. MAITLAND, M.D., I.M.S., Madras;

Major W. E. JENNINGS, M.D., D.P.H., I.M.S., Bombay; and

Major C. DUER, M.B., F.R.C.S., I.M.S., Burma.

Published monthly. Subscription, Rs. 12 per annum. Single copy, Re. 1-4.

The *Indian Medical Gazette* was founded in 1865. It is consequently by far the oldest Medical Journal in India, and has earned for itself a world-wide reputation by its solid contribution to Tropical Medicine and Surgery. It is in every way the most important representative medium for recording the work and experience of the medical profession in India, and by means of its *Exchanges* with all the leading journals in Great Britain, America and Australia, as well as by its foreign exchanges with leading French German and Italian medical periodicals, it is enabled to diffuse information on all tropical diseases culled from an unusual variety of sources.

The *Gazette* is now thoroughly representative of all ranks of the profession in India.

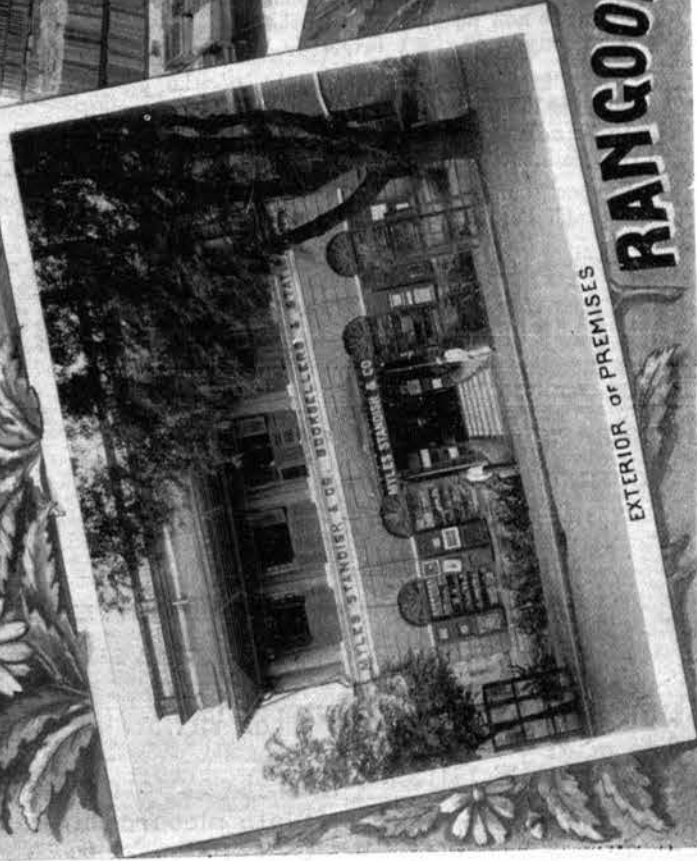

The reviews of *Current Medical Literature* are intrusted to medical officers in India with special knowledge and experience of the subject with

which they deal: they consist of résumés of the most important contemporary work in the various departments of medicine and are as follows:—

- (1) Tropical Medicine; (2) Surgery; (3) Obstetrics and Gynecology;
- (4) Special Senses (Eye, Ear, etc.); (5) Bacteriology and Pathology;
- (6) Public Health and Sanitation; and (7) Military Medicine and Surgery.

WE sell standard and current literature of all kinds: Books on **India**, and the **Far East** in particular. School-books and school sundries have our attention, and we are the biggest importers of **Newspapers** and **Magazines**.

With Stationery we include Book-binding, Die-stamping, and Copper-plate Printing. We are now pushing for all they are worth, and they are worth a good deal, the **Blickensderfer Typewriter** and the **Relief Pen**.

We import **Artists' Materials** of the best quality, and keep a large stock of Fancy Moulding for our Picture-framing Department.

In **Fancy Goods**, we keep well to the front by always stocking things people feel they cannot live without.

In short, our care is to find out what is wanted and to supply it on terms that make us acceptable both to the consumer and the manufacturer.

We seek to be useful, hence we serve.

The Exploration of Tibet: its History and its Particulars, 1623—1904. By Revd. GRAHAM SANDBERG. This work includes a full account of Father Cassiano Baligatti's journey to, and sojourn in, Lháasa in 1740—42, now first translated from the Italian MS. discovered in 1900 by Signor Magnaghi. Particulars are given in graphic style and in chronological order of all other important travels in Tibet; and as a final chapter, there is a carefully-compiled narrative of the present expedition to Gyangtse, with a review of the situation. The book is accompanied by a Revised Plan of Lháasa on a scale of 9 inches to the mile and by a large newly projected map of Tibet embodying all recent discoveries. There is a copious analytical index. Rs. 6.
